ACOUSTIC MATERIAL

AKUPANEL SERIES

直条木格栅 · WOOD SLATS PANEL

With clean lines and minimalist aesthetic, wooden slat panel will give any space an elegant and calm feeling. Whether you're looking for creating a modern and sophisticated office, or a chic and stylish bedroom, these panels will help you achieve what you want. And the wide range of color options make wooden slat panels easy to match with any decor, making them a great option for any space. But the benefits of wooden slat panel don't stop at just their aesthetic appeal. The wooden elements also integrate nature and modern elements and let you enjoy silence and relaxation from nature during life at all times.

凭借其简洁的线条和极简主义的美学，木格栅板将给任何空间带来优雅和平静的感觉。无论你是想打造一间现代精致的办公室，还是一间别致时尚的卧室，这些面板都会帮助你实现你想要的外观。不仅如此，广泛的颜色选择使木格栅板易于与任何装饰搭配，使其适合任何空间。但它们的好处不仅仅在于它们的审美吸引力。木质元素将自然与现代融为一体，让你在生活中时刻享受大自然的宁静和放松。

2700*600/605*21mm
3000*600/605*21mm
OR CUSTOMIZED

Colors and size can be customized.

PRODUCT ADVANTAGES

1. 产品质量稳定, 工厂直销
2. 标准产品, 现货供应速发
3. 格栅系列产品具有吸声降噪功能, 且装饰美观
4. 适用范围广:适用于家居和工业装饰
5. 适用于网站销售和经销商渠道销售

1. Stable product quality and factory direct sales.
2. Standard products, available in stock
3. Functional products with sound absorption, beautiful decoration
4. Wide range of applications: suitable for both house and commercial space
5. Suitable for website sales and distributor channel sales

EXCELLENT NOISE PERFORMANCE

Effective sound-absorbing solutions, as well as reducing the reverberation time of noise in the space.

BEAUTIFUL DECORATION, LIGHT LUXURY AND COMFORT

Luxurious slatted wood walls is carefully designed to easily transform any space, visually and acoustically enhancing the surrounding environment.

ENVIRONMENTAL PROTECTION, SUSTAINABLE MATERIALS

Acoustic panels not only provide aesthetically refined and superior sound insulation, but also use environmentally friendly materials, which can reach environmental protection grade E1.

DESIGNED FOR QUICK AND EASY INSTALLATION

Acoustic panels can be installed by screws or adhesives to provide a quick and easy installation process.

格栅系列的类别划分 The Types of Akupanel

一、单面包/异性木格栅 / Special Irregula acoustic slat wall panels

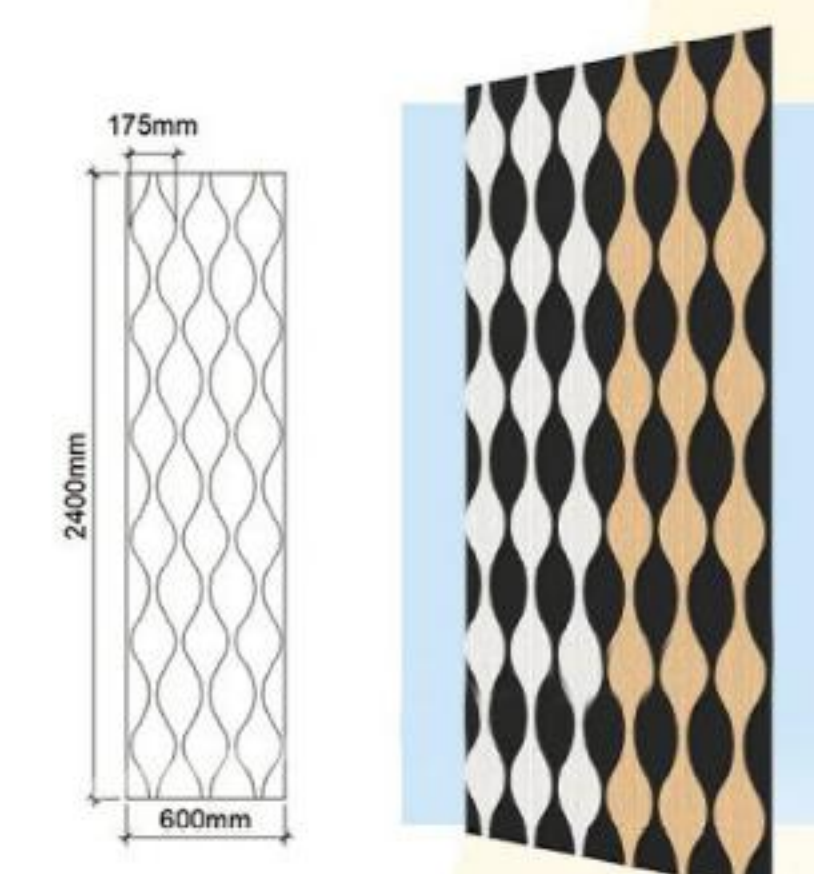

单面包直条格栅

长(Length):2400mm
宽(Width):600mm
厚度(Thickness):21mm
吸声等级(Absorption Class): I
构成(Compose):聚酯纤维+中密度纤维板+科技木皮
(Polyester fiber + medium density fiberboard + technical veneer)

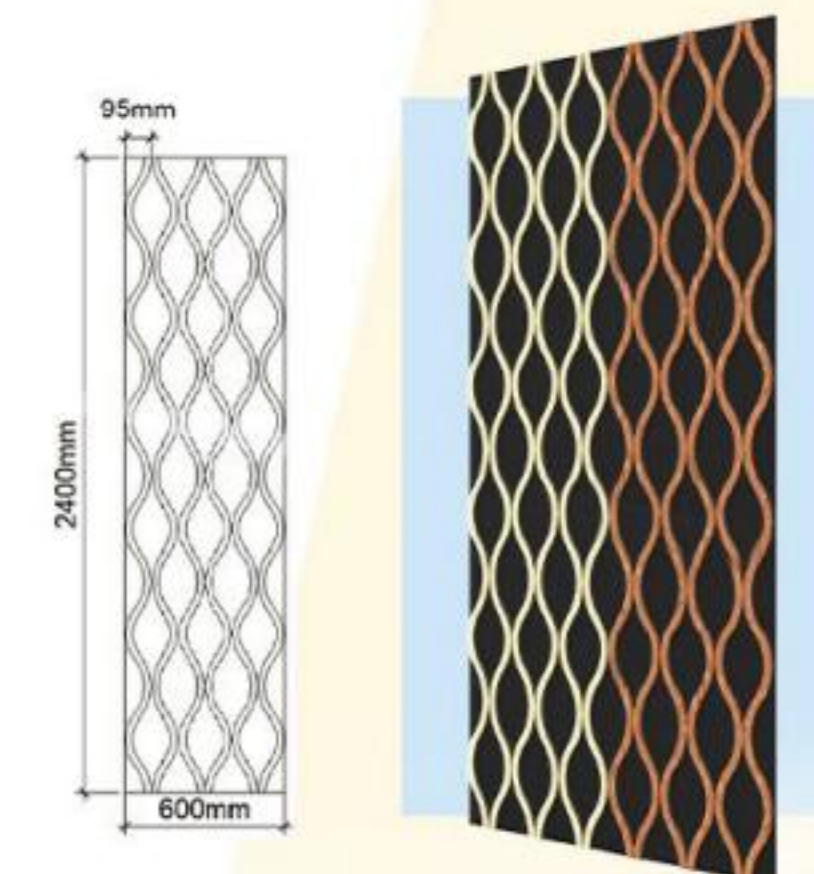

异形木条格栅1

长(Length):2400mm
宽(Width):600mm
厚度(Thickness):21mm
吸声等级(Absorption Class): I
构成(Compose):聚酯纤维+中密度纤维板+科技木皮
(Polyester fiber + medium density fiberboard + technical veneer)

异形木条格栅2

长(Length):2400mm
宽(Width):600mm
厚度(Thickness):21mm
吸声等级(Absorption Class): I
构成(Compose):聚酯纤维+中密度纤维板+科技木皮
(Polyester fiber + medium density fiberboard + technical veneer)

异形木条格栅3

长(Length):2400mm
 宽(Width):600mm
 厚度(Thickness):21mm
 吸声等级(Absorption Class): I
 构成(Compose):聚酯纤维+中密度纤维板+科技木皮
 (Polyester fiber + medium density fiberboard + technical veneer)

异形木条格栅4

长(Length):2400mm
 宽(Width):600mm
 厚度(Thickness):21mm
 吸声等级(Absorption Class): I
 构成(Compose):聚酯纤维+中密度纤维板+科技木皮
 (Polyester fiber + medium density fiberboard + technical veneer)

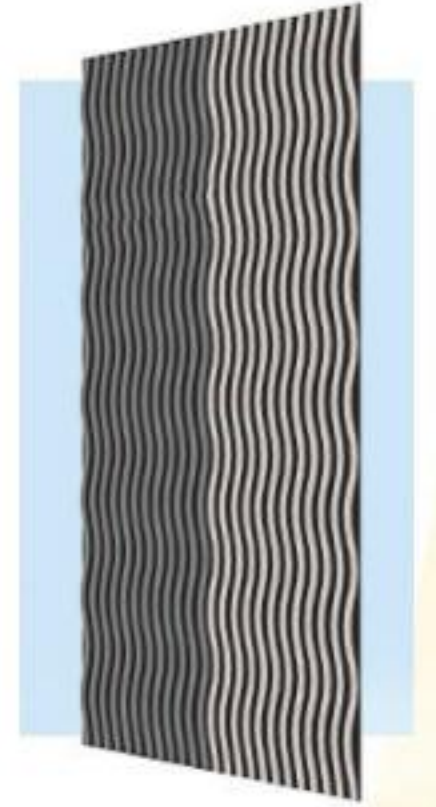

异形木条格栅5

长(Length):2400mm
 宽(Width):600mm
 厚度(Thickness):21mm
 吸声等级(Absorption Class): I
 构成(Compose):聚酯纤维+中密度纤维板+科技木皮
 (Polyester fiber + medium density fiberboard + technical veneer)

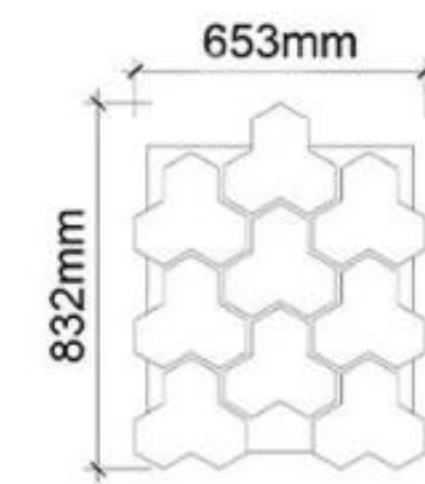

异形木条格栅6

长(Length):2400mm
 宽(Width):600mm
 厚度(Thickness):21mm
 吸声等级(Absorption Class): I
 构成(Compose):聚酯纤维+中密度纤维板+科技木皮
 (Polyester fiber + medium density fiberboard + technical veneer)

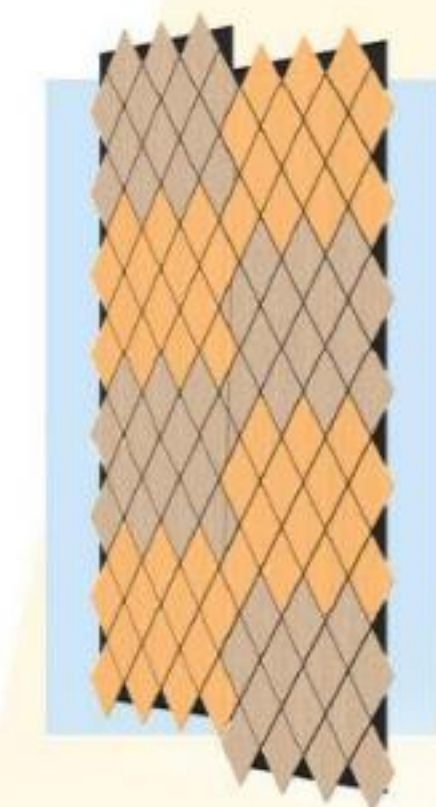

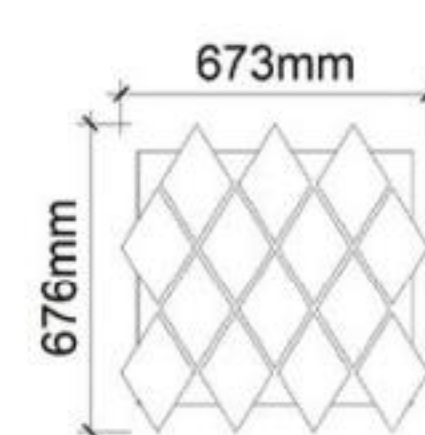

多边形格栅

长(Length):832mm
 宽(Width):653mm
 厚度(Thickness):21mm
 吸声等级(Absorption Class): I
 构成(Compose):聚酯纤维+中密度纤维板+科技木皮
 (Polyester fiber + medium density fiberboard + technical veneer)

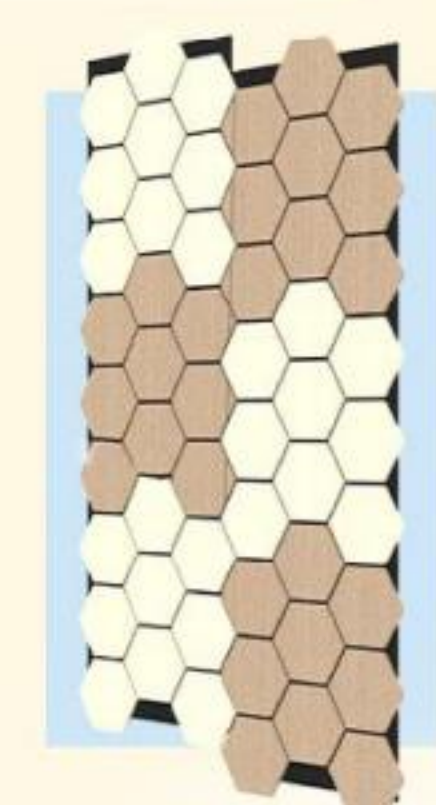

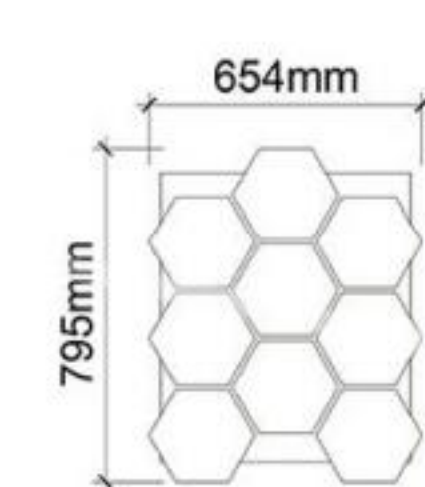

菱形格栅

长(Length):676mm
 宽(Width):673mm
 厚度(Thickness):21mm
 吸声等级(Absorption Class): I
 构成(Compose):聚酯纤维+中密度纤维板+科技木皮
 (Polyester fiber + medium density fiberboard + technical veneer)

六边形格栅

长(Length):759mm
 宽(Width):654mm
 厚度(Thickness):21mm
 吸声等级(Absorption Class): I
 构成(Compose):聚酯纤维+中密度纤维板+科技木皮
 (Polyester fiber + medium density fiberboard + technical veneer)

色彩绒面半圆格栅

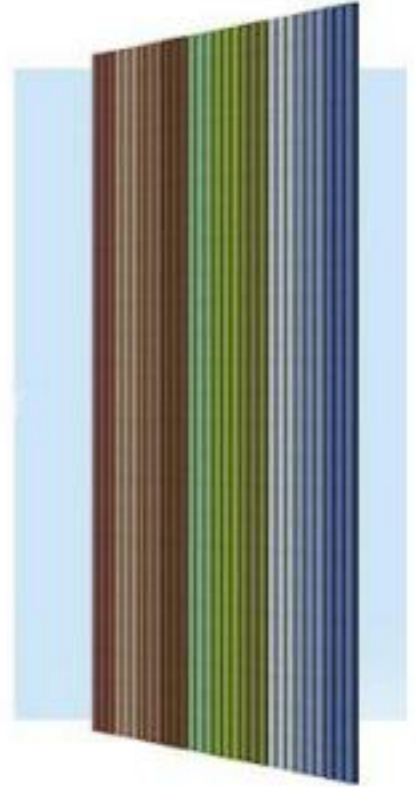

长(Length):2400mm

宽(Width):600mm

厚度(Thickness):21mm

吸声等级(Absorption Class): I

构成(Compose):聚酯纤维+中密度纤维板+科技木皮
(Polyester fiber + medium density fiberboard + technical veneer)

三面包直条格栅

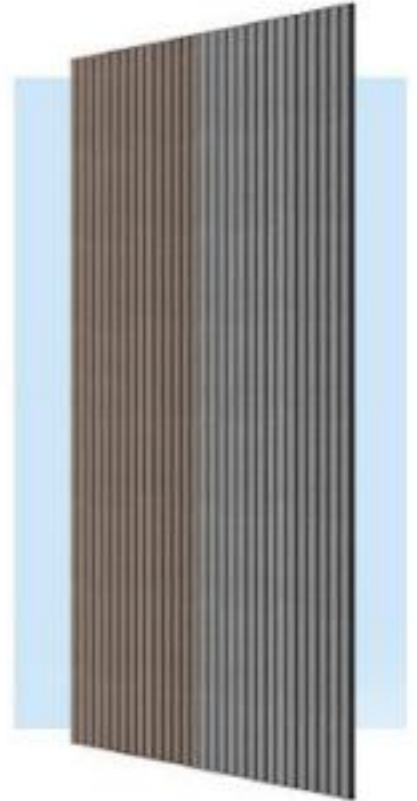

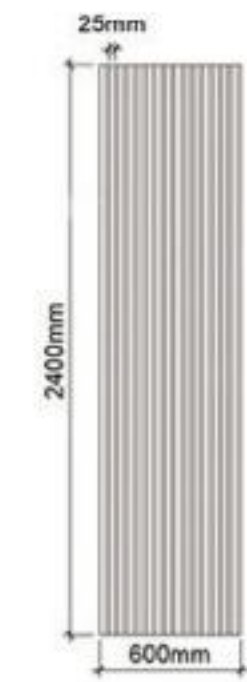

长(Length):2400mm

宽(Width):600mm

厚度(Thickness):21mm

吸声等级(Absorption Class): I

构成(Compose):聚酯纤维+中密度纤维板+科技木皮
(Polyester fiber + medium density fiberboard + technical veneer)

二、三面包 / Three sided veneer (木皮分科技木皮, PVC皮)

Veneer is divided into science and technology veneer and PVC veneer

- ① 直角三面包
Right Angle covering three sides

- ② 圆角三面包
Round corner covered on three sides

- ③ 半圆三面包
The semicircle covers three sides

- ④ 三角形三面包
The triangle covered on three sides

- ⑤ 梯形三面包
Trapezoidal covering on three sides

板条款式多样, 尺寸颜色均可按需定制, 欢迎您前来咨询哦。

Slat style varies, the size and color can be customized. You are welcome to consult for more details

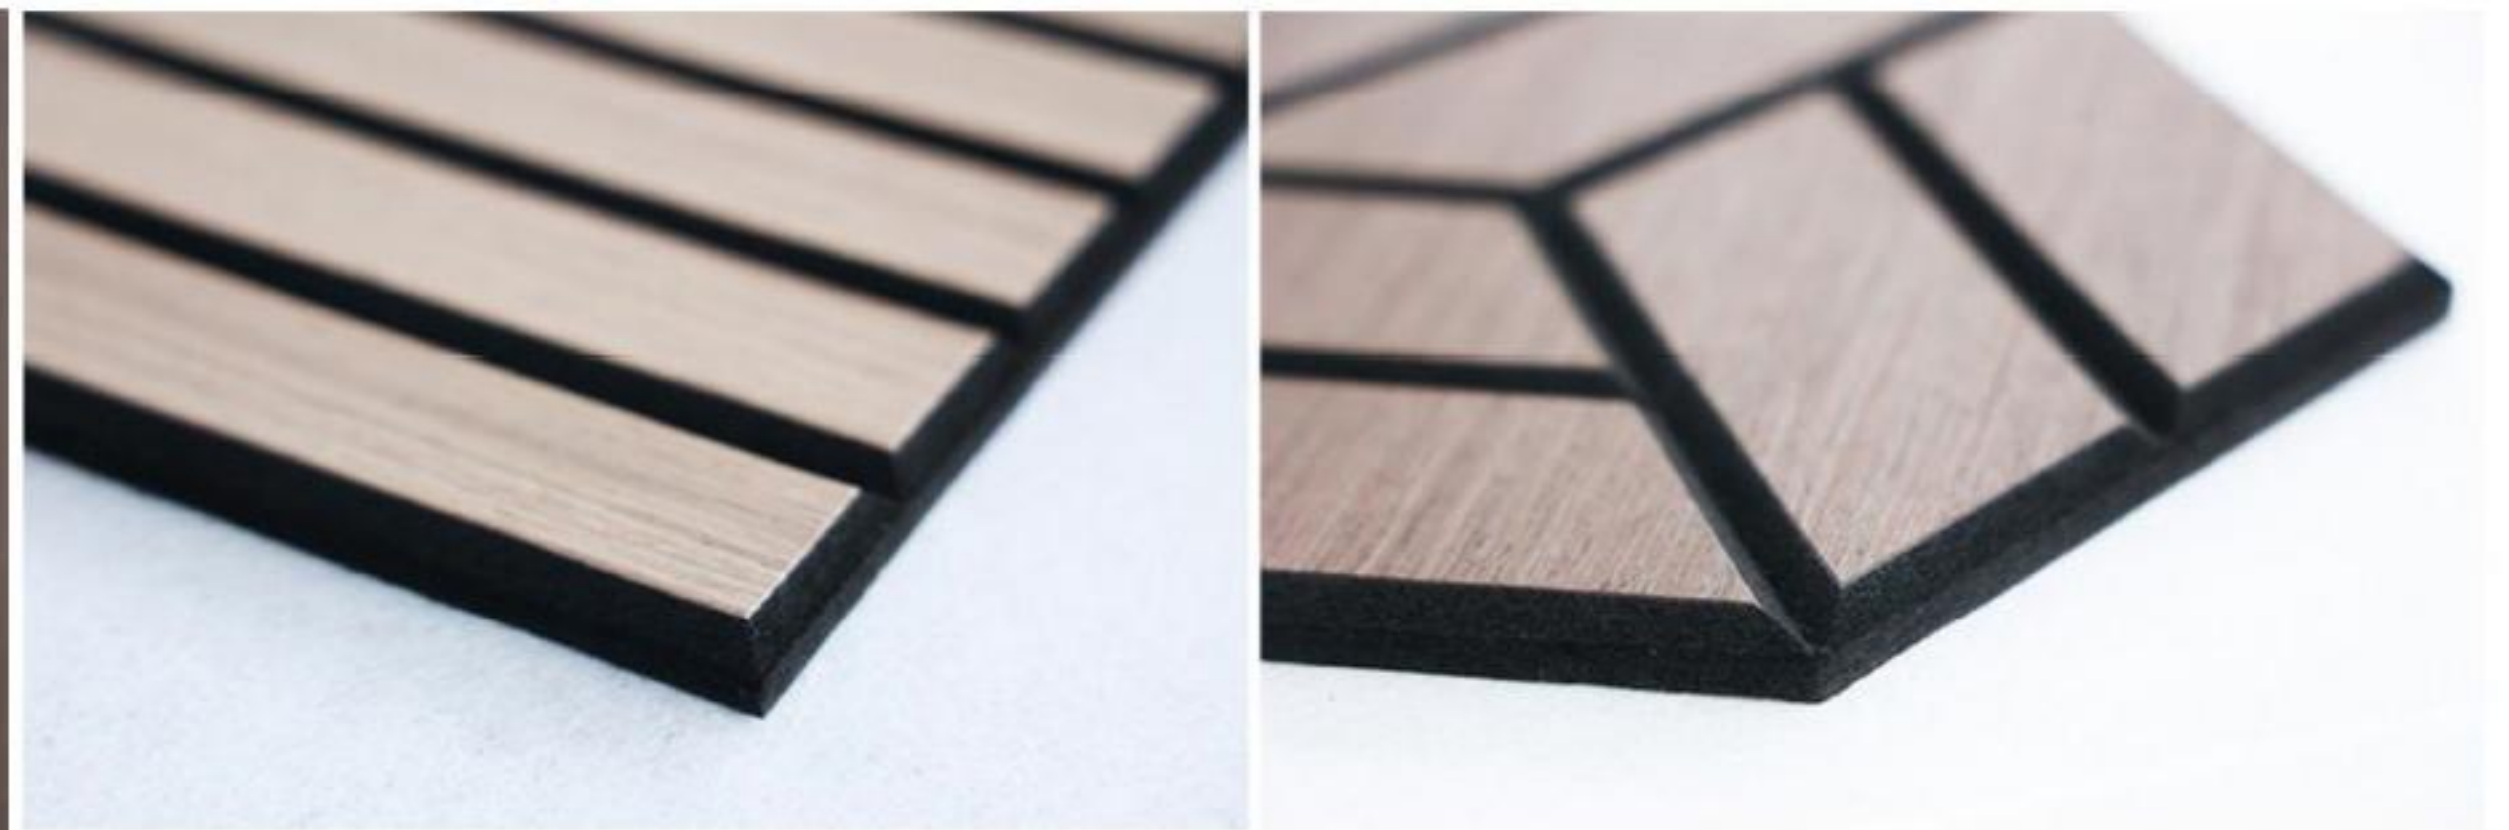

三、吸音板格栅 / PET AKUPANEL

PET+PET 聚酯纤维 吸音板格栅

*阻燃等级 B1
*环保等级: E1

四、木皮复合板 / Wood Veneer PET acoustic panel
